Sanctuaire des Enfants

Kimbilio Prayer news September 2025

Clement reports that they are all well and they hope that we are too. They are thanking God for the success of their former street children. Raphael and Enoch have worked well and received their university degrees. They continue to help at Kimbilio.

Prayer requests:

1. All the school children have started the new school year well. Pray that this good start will continue to the end.
2. Let's pray for the teachers to continue to love their pupils and be patient with their weaknesses.
3. We must continue to pray for the head teacher, Didier, so God can give him stronger health.
4. The work of building the technical school has started. Pray that God will continue to help David (who has supervised all Kimbilio's building projects) to keep strong and continue his excellent work.
5. Continue to pray for Jemima who has epilepsy and is about to give birth. Pray that all will go well.
6. Pray for another Kimbilio girl, 21 year old Jairmena Kiwali. She is very clever but she doesn't want to study as she wants to marry. Her boyfriend's parents, who live near the Kimbilio centre, are in favour of the marriage. Let's place the situation in the hands of God so his will can be done.
7. Please continue to pray for peace in the East of Congo.
